

Declaration of Conformity

Transport packaging used for INVISTA products

MELITEK A/S hereby declares to its customers that the transport packaging used for INVISTA products is assessed, based on available supplier documentation and MELITEK's present knowledge, to comply with applicable requirements for packaging materials, including:

- PPWR Regulation (EU) 2025/40, to the extent requirements are currently applicable and operational EU Packaging Directive 94/62/EC
- REACH Regulation (EC) No. 1907/2006, including requirements concerning SVHC substances
- RoHS-related substance restrictions, where relevant
- POP Regulation (EU) 2019/1021

Based on the supplier declaration, we confirm that heavy metals and substances of concern are controlled within applicable limits, and that the packaging has been assessed with regard to recyclability and environmental impact. Extended Producer Responsibility (EPR) obligations are managed by MELITEK A/S in accordance with applicable national legislation.

This declaration is based on currently available supplier documentation, product information and MELITEK's present knowledge of the relevant regulatory requirements. MELITEK has prepared this declaration in good faith and with the intention of supporting transparent and responsible use of the transport packaging materials.

Declaration date: 24 September 2026

Validity: One year from declaration date
